1. If you were having difficulty with a concept that one of your professors explained in class, would you review a Blackboard video that explained the information?

2. A large percentage (44%) of LU undergraduates enter with College Readiness requirements and must take from 1-3 courses before beginning core courses. A new accelerated program would integrate college readiness skills into core courses with guidance and support. Do you feel this program would be more effective in moving students toward graduation than LU’s current system?
